

Alliance of Medical Student Educators
in Radiology

Member Newsletter ● *Winter 2018*

Greetings to the AMSER Membership!

In this issue of our AMSER newsletter, some of our Committee Chairs share information about our exciting upcoming programs at the 2018 AUR meeting in Orlando. The theme of the meeting is **Health and Well-being of the Profession and the Professional**, and there will be numerous AMSER sessions addressing wellness, in addition to many other useful education topics. We hope to see you at the meeting, and that you'll take the opportunity to get more involved in AMSER. Active participation on our committees is vital to our success.

Emma Webb, M.D.
AMSER President

Association of University Radiologists
66th Annual Meeting

MAY 7 – 10, 2018

**The Omni Orlando Resort
at ChampionsGate**
Orlando, Florida

The 2018 AMSER Preliminary Program

Hi Everyone! The AMSER program planning committee members are delighted to present a topical, exciting, and relevant selection of presentations and discussions during AUR 2018 in Sunny Florida! In keeping with the overarching AUR 2018 theme, AMSER is including sessions on “Engaging Medical Students (with Radiology Residents as Educators),” “Coaching Medical Students through the Career Application Process,” “Bring a Buddy Program/ Radiology Field Trips,” “Medical Students on Call in Radiology” and “Teaching Medical Students Core Clerkship Skills in Radiology” to showcase the efforts AMSER and radiology educators are making to engage and encourage Medical Students into our field. We will also cover radiology faculty career “wellbeing” with talks on “Doctoring Program / Professional Wellbeing and Balance,” the “Multidisciplinary Oncology Experience,” “Getting Recognized for Your Medical School Contributions,” “Management and Leadership Skills for Clinician Educators,” advice on “Curriculum or Program Design,” learning how to give “Assessment and Feedback,” “Where to Send Your Educational Papers” and “Funding Opportunities for the Clinician Educator.” Finally, there is something for everyone in the presentation on “Approach to the Faculty Colleague, Resident or Medical Student in Distress.” We invite (*and expect!*) audience participation with several incorporated panel discussions and a dedicated “Closing the Gender Gap in Radiology” roundtable!

Aine Kelly, M.D., M.S.
Chair, Program Planning
Committee

AMSER Session 1: Monday May 7, 2018: 1:00 – 2:30 PM

The Image of Radiology: Integrating Radiology in the Pre-Clinical Years

Moderators: Allison Grayev, MD, and Kimi Kondo, DO

- | | | |
|----|--|----------------------------|
| 1. | M1 - Doctoring Program/ Professional Wellbeing and Balance | Katherine Klein, MD |
| 2. | M2 - Bring a Buddy Program/ Radiology Field Trips | Matt Heller, MD |
| 3. | M3 - Multidisciplinary Oncology Experience | Angela Giardino, MD |
| 4. | M4 - Teaching Core Clerkship Skills | Andres Ayoob, MD |
| 5. | Medical Students on Call in Radiology | Matt Hartman, MD |
| 6. | Panel Discussion: Conclusion | All speakers |

Learning Objectives:

By the end of AMSER Session 1, attendees will be able to:

1. Integrate radiology into all aspects of early medical school education
2. Create a program for medical students to experience a radiologist’s workday
3. Identify where radiology fits in patient pathways in the clinic/hospital system
4. Compose core clerkship imaging skills training for senior medical students
5. Design a medical student on call in radiology program

AMSER Session 2: Monday May 7, 2018: 3:00 – 4:30 PM

Self-Preservation Skills for the Radiology Educator

Moderators: **Carl Fuhrman, MD**, and **Sravanthi Reddy, MD**

- | | |
|---|---|
| 1. Getting Recognized for your Medical School Contributions | David Naeger, MD |
| 2. Coaching Medical Students Through the Career Application Process | C. Alexander Grieco, MD |
| 3. Engaging Medical Students: Residents as Educators | Jeanine Beatty Chadha, MD |
| 4. Approach to the Faculty Colleague, Resident or Medical Student in Distress | Leslie Scoutt, MD |
| 5. Panel Discussion: Closing the Gender Gap in Radiology | Erinn Cooke, MD
Alison Chetlen, MD
Smyrna Tuburan, MD
Emily Webb, MD |

Learning Objectives:

By the end of AMSER Session 2, attendees will be able to:

1. Apply their medical school educational efforts towards career development
2. Discuss relevant factors and steps in the career application process for students
3. Integrate residents and medical students as stakeholders in radiology education
4. Show abilities to approach and assist colleagues in distress
5. Evaluate factors that create or solve the gender gap in radiology

AMSER – ACER Session: Wednesday May 9, 2018: 3:00 – 4:30 PM

Education Problem Solving: Trainee and Faculty Wellbeing

SAM Session

Moderators: **Ramesh Iyer, MD**, and **David Sarkany, MD**

- | | |
|---|-----------------------------------|
| 1. Management and Leadership Skills for Clinician Educators – How to Get Started on the Ladder to Success | Alison Chetlen, DO |
| 2. Where to Send Your Educational Papers | N.Reed Dunnick, MD |
| 3. Funding Opportunities for the Clinician Educator | Aine Kelly, MD, MS |
| 4. Curriculum or Program Design | Allison Grayev, MD |
| 5. Assessment and Feedback | Priscilla Slanetz, MD, MPH |
| 6. Panel Discussion: Conclusion | All speakers |

Learning Objectives:

By the end of the AMSER – ACER session, attendees will be able to:

1. Identify essential management and leadership skills for career success
2. Distinguish the most appropriate venues to send their educational papers to
3. Summarize the various funding opportunities for educational scholarship efforts
4. Design a curriculum or program in radiologic education
5. Perform assessment of and feedback to radiology trainees

The 2018 Lucy Squire Invited Lecture:

Cultivating Mindfulness and Resilience for Ourselves and for Our Trainees

Fred Marshall, M.D.

Tuesday May 8, 2018 – 8-9:30 AM

We are honored to have Dr. Fred Marshall as our Lucy Squire Speaker and he will present “Cultivating Mindfulness and Resilience for Ourselves and for Our Trainees.” For more than a quarter century of working with patients and families coping with devastating neurological illness, Dr. Marshall witnessed the value of loving kindness, the transformational power of holding a quiet space, and the capacity of each person to find deep solace in beginning again and in letting go. Fred is Professor of Neurology and Chief of the Division of Geriatric Neurology at the University of Rochester School of Medicine and Dentistry, where he founded the Memory Care Program, a multidisciplinary clinic for people suffering with dementia. He is a core faculty member in the U of R’s pioneering mindfulness curriculum for medical students and residents. With his colleagues, Dr. Marshall co-facilitated twice yearly residential trainings for medical educators, physicians and other health-care providers from around the world (Mindful Practice: Enhancing Quality of Care, Quality of Caring and Resilience) since 2011. A former Dean’s Teaching Fellow, Fred is the recipient of multiple teaching awards, including election by the students to Alpha Omega Alpha, the Gold Foundation for Humanism in Medicine, and the White Coat Ceremony keynote. He enjoys traveling with his family, and is an accomplished jazz pianist.

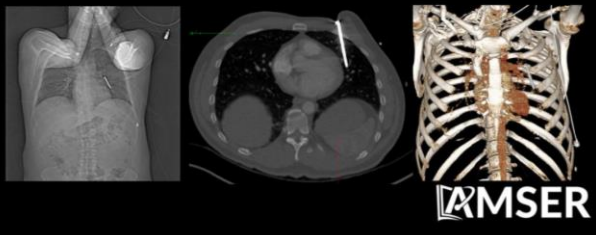

Thanks to everyone in the affinity groups who helped coordinate the programs - see you all soon!

Aine M. Kelly, M.D., M.S.

There are many ways to become more involved with AMSER’s various committees. In Orlando, you’ll get to meet our committee chairs and hear about what they’ve been working on over the past year. In the

meantime, check out the [AMSER Case of the Month](#), courtesy of Dr. Matthew Hartman and the Curricular and Educational Resources Committee...

AMSER Med Student Case of the Month

Co- Chair, Curricular and
Educational Resources

Recruitment Update

Allison Grayev, M.D.

Chair, Membership

Greetings from the frozen tundra of the upper Midwest! Thank you all for your continued support of AMSER – can you help to recruit any new members at your institution?

Benefits of membership include access to our educator resources – including not only the national curriculum, but also information about helping students through mentoring and the residency application process. There are instructions and resources to develop a medical student expo – to introduce students to the field – as well as suggestions and materials to help promote radiology during clinical clerkships.

One of the most helpful things that I've used is the Promotion Resources – tips on getting credit for the teaching you're already doing and formatting your portfolio to document it!

Do you know that medical students who join the AUR are automatically signed up as AMSER members? All they need to do is fill out the AUR application form and have it signed by an appropriate faculty member. We are currently exploring ways to get them more involved in AMSER, potentially through committee or meeting participation.

Any questions? Feel free to reach out and contact me – agrayev@uwhealth.org

A Word from the Editors

Thank you for checking out the AMSER Winter AKA “Pre-Meeting” 2018 newsletter. Thanks to Aine’s work, the AMSER program will be exceptionally valuable and high-yield, but is just a portion of the many excellent offerings at this year’s national meeting. We hope to see you at the meeting, and to discuss the many ways AMSER can support our collective educational mission.

Alex Grieco, M.D.
