

Instruction for authors for AMSER Case of the Month:

AMSER (The Alliance of Medical Student Educators in Radiology) is soliciting cases for the AMSER Case of the Month from medical students which will be published electronically on our website. These are meant to be straightforward cases that utilize the ACR Appropriateness Criteria with an emphasis on the radiologic work up of the case, the findings, and a short discussion. Cases should be 10 slides (12 absolute maximum). They will initially be presented as PDFs but we may switch to a more interactive web based format.

The first step for submitting a case is to fill out the following case suggestion form and email it to me at mhartman@wpahs.org

First Name:

Last Name:

Email:

Institution:

Attending-level physician who must be an AMSER member who has reviewed your case:

Diagnosis:

Subspecialty (i.e GI, GU, Chest, Neuro, etc):

Modalities:

Attached case and template: Please follow the format of the published cases and template and send it as a PowerPoint which the editor can make changes to if necessary.

Once the editors have reviewed your suggestion, they will let you know their decision via e-mail.

Thank you,

Matthew Hartman, MD

Clinical Course Director AHN Health System
