

# AUR Gold Medalist Tribute

**Felix S. Chew, MD, MBA, EdM, FACR**

*Introduction by Michael L. Richardson, MD*

Felix S. Chew, MD, MBA, EdM, FACR, was born and raised in Coral Gables, Florida. After high school, he entered Princeton University as a National Merit Scholar and was a member of the fencing team. He graduated in 1975 with an AB degree in biochemical sciences. He then attended the University of Florida in Gainesville, earning an MD degree with honors for research in 1979.

After an internship in diagnostic radiology at the University of Florida School of Medicine, Dr Chew spent 1980–1984 on active duty in Germany, serving as a general medical officer in the US Army Medical Corps. After his discharge from the army, he began his residency in diagnostic radiology at SUNY Upstate Medical University in Syracuse, New York, from 1984 to 1987, serving as chief resident from 1986 to 1987. After his residency, he joined the faculty at SUNY Upstate Medical University, where he served as an assistant professor from 1987 to 1989.

In 1989, Dr Chew moved to Boston, Massachusetts, where he became an instructor in radiology at Harvard Medical School and a staff radiologist at the Massachusetts General Hospital. As an American Roentgen Ray Society Scholar, he earned a master's degree in education from Harvard in 1995.

In 1998, Dr Chew joined the faculty at Wake Forest University School of Medicine as a professor of radiology and head of the musculoskeletal radiology section. During his time there, he also earned an MBA degree in management from Duke University in 2004.

In 2004, Dr Chew moved to his current position in Seattle, Washington, where he joined the University of Washington School of Medicine as professor of radiology and head of the musculoskeletal radiology section. In 2011, he was named vice chair for academic innovation.

Dr Chew has had a distinguished career as a radiology educator, training hundreds of radiology residents and dozens

of musculoskeletal fellows. He has also mentored dozens of junior faculty who are now successful academic radiologists. Besides his many publications on education, he has won the AUR's Joseph E. and Nancy O. Whitley Award for research in radiology education an unprecedented five times. He is the author of several seminal textbooks of skeletal radiology, including *Broken Bones: The Radiologic Atlas of Fractures and Dislocations*; *Musculoskeletal Imaging: A Teaching File*; and *Skeletal Radiology: The Bare Bones*.

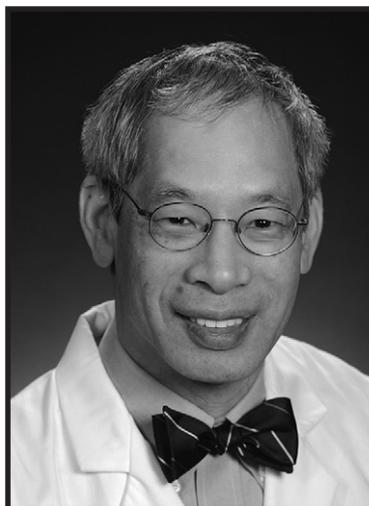

Dr Chew has made radiology journalism the other cornerstone of his radiologic career. He was the first Melvin M. Figley Fellow in Radiology Journalism and has been a section editor of *AJR: American Journal of Roentgenology*. He is the editor-in-chief of *Radiology Case Reports*, an open-access peer-reviewed journal that he cofounded, and is a chief editor of *eMedicine: Radiology*.

Active in organized radiology, Dr Chew has served as a committee chair for the Radiological Society of North America, the American Roentgen Ray Society, and the Society of Skeletal Radiology. Dr Chew was an examiner for the American Board of Radiology and chaired the musculoskeletal section of the ABR Committee for the Written Examination.

Dr Chew has a long and distinguished record of service to the Association of University Radiologists. He is a past presi-

dent of the AUR and is currently serving his second term on the AUR Board of Directors. He has been an associate editor for *Academic Radiology* and currently serves on its editorial board. He has chaired and served on numerous AUR committees. He has been a member of the Radiology Research Alliance and the Radiology Alliance for Health Services Research and is a founding member of the Alliance of Clinician-Educators in Radiology.

It is with great respect and affection that the AUR presents its Gold Medal for 2018 to Felix S. Chew, MD, MBA, EdM, FACR.

*Felix S. Chew,  
MD, MBA, EdM, FACR*
